

IXL Summer Work

For your Math Summer Work you are being provided with IXL codes to practice your math skills weekly. You will be given your own account information (username & password) to log into www.ixl.com Once logged in, follow these steps to complete your Math Summer Work:

1. There will be a search area on the top left corner next to the IXL logo. This is where you type the suggested code and hit enter. It will take you directly to the problems to practice this skill.

2. After working on the suggested skill for 20-30 minutes, document your SmartScore on the Summer Work paper provided. Your SmartScore is located in the orange colored box to the right of your screen.
