

# St. Joan of Arc School

## Parent Newsletter

January 22, 2025

Dear Parents and SJA Families,

We continue to follow the school closing and delay schedule of Harford County Public Schools. Occasionally, there could be an exception to this if the Superintendent determines that the delay or closing by the local system is only due to the safety of walkers or students standing at bus stops, which would not affect our students. If there is any event where we do not follow the schedule of Harford County, we will let you know via the usual communication methods. As always, your discretion when it comes to the safety of your child in these situations will be respected.

I would like to again mention that on Thursday, January 30, at 6:30, St. Joan of Arc School will host a presentation for parents on internet and social media safety. Our presenter, Mr. Joe Dugan, has 37 years Law Enforcement experience, and currently works as an Internet Safety Specialist with the Maryland State Police. He will discuss many ways our children can find themselves in trouble on the internet. This presentation will take place in the church hall. This topic is very important to know about to keep our kids safe and out of trouble. The presentation is for **adults only**.

Given that it is difficult to have fire drills during the winter weather we will be focusing on completing other required safety drills. Please let your child know that the school will be having drills such as lockdowns and shelter drills, and that should not make them anxious. I will also prepare them via announcements to minimize stress. Thank you.

Stay warm, and be blessed!

Mr. Schmitz

# SJA Family STEM NIGHT

Knights Unite for STEM Education

**APRIL 10, 2025**

**5:00-7:00 PM**

## **Our Mission**

The purpose of the Family STEM Night is to inspire students to explore STEM topics and careers, to showcase school STEM projects, and to highlight businesses and organizations in our community that use STEM skills. Our hope is that this STEM Night inspires our students and invites them to explore all the ways STEM skills are used in industry and in everyday life.

## **Will You Host a Table?**

We are looking for individuals or organizations to host tables at our STEM night. Each table should teach children how STEM is used in your career, or provide a hands on STEM activity for students to participate in. There is no fee for hosting a table, we are just hoping to build partnerships with organizations in our community and expose our students to practical applications of STEM.
